1. About the EVOLVEO Nubiloo device

EVOLVEO Nubiloo is a sleep-inducing and calming module that helps create a pleasant sleep environment for both children and adults. It combines the soothing sounds of white noise, nature and gentle lullabies with subdued colored light that creates a sense of security and well-being. It helps babies fall asleep more easily, dampens sudden noises in the environment (e.g., in a stroller or a noisy household) and provides adults with undisturbed sleep or better concentration while working or resting.

The device is light, compact and easy to carry - ideal for the crib, bedroom, office and on the go. Thanks to the practical strap, you can easily attach it where you need it. The control is very simple and you can do it even at night - with one hand you can choose the desired sound, set the volume, light color or automatic shutdown timer.

EVOLVEO Nubiloo remembers the last selected mode, so the next time you turn it on, it continues exactly where you left off. Whether you're looking for a helper to help your child fall asleep, or a way to get rid of distracting noise while you sleep or concentrate, Nubiloo will easily become your everyday support.

2. Safety Warning

• Strangulation Hazard! The device contains a power cord that can be dangerous if used incorrectly. Never leave the cord hanging loose in a crib, playpen or near a child. Always ensure that the device is safely placed out of the child's reach.
• This device is not a toy. Do not leave it within the reach of small children without supervision. Do not place it in a crib, do not allow a child to put it in their mouth or handle it while sleeping.
• Only connect the power cord with dry hands. A damaged or wet cord can cause electric shock or fire.
Do not install the device above a crib or other places where it could fall on a child. There is a risk of injury if it falls.
• Do not expose the device to water or moisture. Do not use it in a bathroom, above a sink, near a washing machine or in other damp environments.
• Do not expose the device to high temperatures. Do not place it on radiators, in direct sunlight or other heat sources.
• Use only the original power cord supplied by the manufacturer. Do not use uncertified adapters or extension cords.

Warning
• The device contains a built-in rechargeable battery. To prevent fire or electric shock, do not expose it to rain or water.
• Do not open the device or tamper with its internal parts, including the battery. This may cause injury and void the warranty.

3. First start

Using the EVOLVEO Nubiloo is very simple and can be done in a few seconds. Follow these steps:

1. Turning on the device
Hold the main power button for about 2 seconds. After switching on, the green indicator light will light up.
2. Sound selection
Shortly press the appropriate button to select what you want to play - white noise, lullaby or nature sound.
The device remembers the last selected sound, so it will automatically resume the next time it is switched on.
3. Volume adjustment
Use the + and - buttons to adjust the volume to a comfortable level for the environment and the needs of the child.
4. Night light
Shortly press the button with the light symbol to turn on the light.
Long press to adjust the brightness of the light - from dim to strong. Short press also changes the color of the light (red, yellow, green, blue, white).
5. Setting the timer
Hold the timer button to switch between 30, 60 or 90 minute auto-off modes. The selected time will be displayed on the corresponding indicator light.
6. Turning off the device
Hold the power button for 2 seconds. The device will turn off.

Volume Warning
When using at maximum volume, place the device at least 1 meter away from your child's head to avoid possible irritation or damage to their hearing.
The sound output is loud and may be uncomfortable for children's ears if the device is too close.

4. Recommended placement

To maximize the effectiveness of ambient noise cancellation, we recommend placing the device between you and the noise source. For example, in an urban environment, it is ideal to place the device near a window, where it will help filter out street noise. If you are disturbed by a noisy neighbor, placing it near a shared wall may help. If the noise is coming from another room in your home, place the device as close to the source as possible.

For example, if you are disturbed by your partner's snoring, it is best to place the device on the bedside table on your side of the bed.

In general, we recommend placing the device at least one meter away from you or your child. This will help the sound fill the room better, gently masking distracting stimuli and creating a pleasant environment for restful sleep, concentration or privacy.

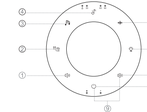
5. Technical parameters

• Light output: 1 W
• Speaker output: 5 W
• Light source type: LED RL-5050RGB
• Light color temperature: 3000 K
• Supply voltage: 5 V DC
• Auto-off timer: 30 / 60 / 90 minutes
• Sounds: 6 white noises / 9 lullabies / 15 nature sounds
• Volume: Adjustable in 32 levels
• Battery capacity: 1000 mAh
• Charging time: approximately 2.5 hours

6. Package contents

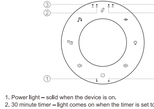
1 x EVOLVEO Nubiloo
1x USB-A to USB-C cable
1x practical strap
1x user manual

7. Description of buttons and functions



1. Volume down
Press the volume down button to adjust the sound level as needed.
2. Night light color selection
Short press to switch between five light colors: red, yellow, green, blue and white.
3. Lullabies
Short press to switch to the next lullaby. There are 9 melodies to choose from, designed to help you fall asleep easily.
4. Nature sounds
Short press to switch to the next nature sound - there are 15 soothing sounds available (e.g. rain, wind, forest).
5. White noise
Short press to switch to the next white noise track. There are 6 variations in total that help block out ambient noise.
6. Night light - turn on and adjust brightness
Short press to turn the light on or off. Long press to adjust the brightness from dim to brighter.
7. Volume up
Press the volume up button to adjust the sound to your environment.
8. Power button
Long press to turn the device on or off. Short press to pause or resume the sound during playback.
9. Child lock (control lock)
To activate the child lock, press and hold the power button and the volume up button for about 3 seconds. This locks the entire control and prevents children from accidentally switching buttons.
To deactivate, repeat the procedure - the device will return to normal mode.se opět vrátí do běžného režimu.

8. Indicator light states



1. Power light – solid when the device is on.
2. 30 minute timer – light comes on when the timer is set to 30 minutes.
3. Child lock – light comes on when the control lock is active.
4. 90 minute timer – light comes on when the timer is set to 90 minutes.
5. 60 minute timer – light comes on when the timer is set to 60 minutes.
6. Charging light – red when charging, green when fully charged.

Warranty and post-warranty conditions

All repairs and service interventions can be carried out exclusively in an authorized service center for EVOLVEO products. The current list of service locations can be found at www.evolveo.com. Intervention in the device outside of an authorized service center may lead to damage to it and also void the warranty.

DISPOSAL

The symbol of a crossed-out bin on the product, in the documentation or on the packaging means that within the European Union it is necessary to dispose of electrical and electronic equipment, batteries and accumulators separately from ordinary municipal waste. At the end of its service life, do not throw this product into mixed waste, but hand it in to a place designated for ecological recycling.

CE DECLARATION OF CONFORMITY

Abacus Electric, s.r.o. hereby declares that the EVOLVEO Nubiloo audio baby monitor complies with the requirements of all relevant regulations and standards, including the RED Directive (2014/53/EU). The device operates in the 2.4GHz band and uses its own wireless communication technology (it is not connected to Wi-Fi or Bluetooth).
